

Pro-Max machine film is a high performance film that delivers exceptional clarity, enhanced puncture resistance, and excellent force-to-load all in a cost effective package. The convenient packaging and roll configurations give Pro-Max the lowest roll cost in the industry.

### Advantages

- High Performance Machine Film
- Improved Force-to-Load
- Long Term “Proven” success
- Proven performance on all equipment
- Convenient 50 roll pallets
- Lowest Roll Cost in Industry

Item Code	Roll Width	Film Thickness	Roll Length	Rolls per Pallet
M2047PM	500mm	12 Micron	7,000 ft.	50
M2057PM	500mm	14.5 Micron	5,000 ft.	50
M2063PM	500mm	16 Micron	5,000 ft.	50

Platinum Max Machine Film is an ultra-performing stretch film with unmatched puncture resistance. This proven high performing product is available in lower gauges with exceptional holding force on pallet performance. Outer side cling offers incredible grip and corner hold creating a superior force to load.

### Advantages

- Ultra-High Performance Machine Film
- High Puncture / Tear resistant
- Very High Clarity
- High Load containment in light gauges
- Exceptional Pre-Stretch levels
- One Side Cling

Item Code	Roll Width	Film Thickness	Roll Length	Rolls per Pallet
M2039MPX	500mm	9.9 Micron	9,000 ft.	50
M2055MPX	500mm	14 Micron	6,000 ft.	50
M2061MPX	500mm	15.5 Micron	5,500 ft.	50
