

The Eagle 710 is an innovative world-class high-speed automatic strapping machine capable of using 5mm, 6mm, 9mm or 12mm polypropylene strap. It offers optimal performance, highest speed, easiest maintenance and the most cost effective solution in its class.

The Eagle 715 & 702 series use the latest DC brushless motor technology to provide the highest level of accuracy and reliability on the market. All motors are German-made.

The strapping head has no belts, clutches or pulleys. It is designed with up-to-date technology with minimal moving parts. With 30% fewer parts, the Eagle 715 & 702 series strapping machines require fewer adjustments, less maintenance, and has fewer wear components.

- LCD screen display
- Self-threading
- High and low tension settings
- Loop ejector for jam-free operation
- Waist-high coil changer with quick release
- Tool-free general maintenance

## Additional information

<b>Power</b>	110VAC, 50/60Hz, 0.5kW
<b>Minimum Carton Size</b>	2.75" (W) x 0.75" (H)
<b>Standard Arch Size</b>	25" Wide x 19" Height
<b>Tabletop Height</b>	820-920mm, 32.3-36.2in
<b>Core Size</b>	8" x 8"
<b>Tension</b>	2.5 to 70.5 lbs.
<b>Machine Dimensions</b>	37" x 26.5" x 56"
<b>Strapping Speed</b>	65 straps/minute
<b>Strap size</b>	Width: 5-9mm, 0.2-0.3in Thickness: 0.35-0.65mm, 0.014-0.026in Coil diameter: 200mm, 8in
<b>Machine Weight</b>	158kg, 348lbs
<b>Working Noise</b>	78 dBA
<b>Working Environment</b>	5-40°C, 41-104°F
